

Bradley Design-Build/IPD Resources

Bradely BIM for Design-Build/IPD and Prefabrication Workflow Processes

1 Revit Models/BIM Product files for:

- Architecture & Interiors/Design Specifications
- Engineering Design & Specifications
- Construction Estimating, Coordination & Prefabrication
- Owner Facilities Management & Maintenance

2 AutoCAD/CAD Product files for:

- Architectural & Interiors
- Engineering
- Construction
- Facility Management

3 Prefabricated & Modular Products

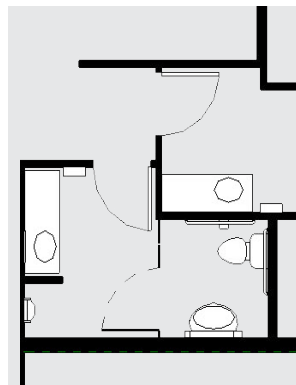

4 Digital Specifications

- e-SPECS for BIM-automated construction specifications
- 3-Part Construction Specifications (PDF, HTML, MS Word)

5 Sustainable Products & Digital Documentation

6 LEAN Manufacturing Serves LEAN Construction

7 Global Sales/Service Partner Network

Bradley Design-Build/IPD Resources

Data-Rich Revit (BIM) Product Library

The Bradley BIM Library contains 1,000+ Revit models. Models contain shared parameters for schedules & tagging, materials & finishes, OmniClass titles-numbers, MasterFormat titles-numbers, Uniformat assembly codes, tech data & specification URLs and more.

Prefabricated & Modular Products

Bradley products support construction prefabrication processes and modular design strategies that are proven financial allies to the BIM process. Bradley prefabricated products expedite construction processes and scheduling while minimizing labor costs and construction waste.

Digital Specifications & Tech Data Sheets

Bradley 3-Part Specifications format include MS Word, HTML and PDF and are available for download. Bradley is a Building Product Manufacturer for BIM-automated specifications e-SPECS for Revit, Navisworks & ArchiCAD.

Sustainable Products & Digital Documentation

Bradley is a member of the United States Green Building Council (USGBC) and has implemented many internal procedures to reduce waste and conserve resources in our manufacturing processes as well as continue to introduce products that support sustainable building design certification.

LEAN Manufacturing Serves LEAN Construction

LEAN manufacturing concepts are transforming Bradley's building product manufacturing processes. They complement our global clients' LEAN & green construction processes. Flexible product procurement & delivery options assist material staging, phasing & sequencing, pull plan scheduling & last planner processes.

Global Sales/Service Partner Network

The global Bradley Sales/Service Partner Network offers a local presence for project service, sustainable product recommendations and maintaining the project schedule. The Bradley International Team and Bradley products have serviced international project locations for 45 years.
